Release of Information: Your Protected Health Information (PHI) will be used by this office and/or disclosed to others for the purposes of treatment, obtaining payment, or supporting the day-to-day health care operations of this office. You should review the Notice of Privacy Practices for a more complete description of how your PHI may be used or disclosed. It describes your rights as they concern the limited use of health information, including your demographic information, collected from you and created or received by this office. You may review the Notice prior to signing this consent. You may request a copy of the Notice at the Front Desk. This office reserves the right to modify the Privacy Practices outlined in the Notice.

Requesting a Restriction on the Use or Disclosure of Your Information: You may request a restriction on the use or disclosure of your PHI. It is the policy of this office that it will continue to provide treatment for a patient who restricts consent to the use and disclosure of his/her PHI for the purposes of treatment, payment, or health care operations. Informed Consent for Treatment

I hereby request and consent to the performance of chiropractic procedures, various forms of physio-therapy, physical examination, x-ray studies, and/or any clinical services that are deemed necessary in my case to be administered by the doctor and/or any support staff employed or contracted by this office or clinic. I understand that, as with any health care procedure, complications are possible following chiropractic manipulation and/or manual therapy techniques. The risks of complications due to chiropractic treatments have been labeled as "rare" and include, but are not limited to, muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, fracture, disc injury, stroke, dislocations and sprains.

I understand that Chiropractic adjustments and supportive treatment is designed to reduce and/or correct subluxations, allowing the body to return to improved health. It can also be used to alleviate other symptoms through a conservative approach with hopes to avoid more invasive procedures. I further understand that, as with all healthcare treatments, results are not guaranteed and there is no promise to cure. I hereby acknowledge that if I do not keep appointments as recommended to me by my treating doctor, he/she has the right to terminate responsibility for my care and relinquish any disability granted me within a reasonable period of time. I further understand that there are other treatment options available for my condition, and that I have the right to a second opinion should I have concerns as to the nature of my symptoms and/or treatment options. If during the course of my care my insurance company requires me to take an examination from any other doctor, I will notify this facility/physician immediately. I understand that failure to do so may jeopardize my case.

I, ___ (print) have read the above consent and I have had an opportunity to ask questions regarding its content. By signing below, I agree to the above-named procedures and intend this consent to cover my entire course of treatment for my present condition and for any future condition(s) for which I seek treatment with this office.
